Hi I need some help with installation. I have managed to change a few files but I still get an error message. Here is the message:

Fatal error: Failed opening required 'classes/php\_session.class.inc'  
(include\_path='.;C:\phpdev\includesPATH\_SEPARATOR../menuPATH  
\_SEPARATOR../auditPATH\_SEPARATOR../workflowPATH\_SEPARATORC:\ phpdev\includes')  
in C:\phpdev\includes\std.singleton.php4.inc on line 39

Any help is appreciated  
thanks
