Subject: Re: Help/suggestions with record filtering by user Posted by AJM on Thu, 10 Jul 2008 13:03:14 GMT View Forum Message <> Reply to Message

If you look inside the insertRecord() method you will see that \$fieldarray is copied to \$insertarray, and while \$insertarray is used by the _cm_validateInsert() method it is \$fieldarray which is used by the _cm_post_insertRecord() method.
