Subject: Re: Searchbox in www.radicore.org not working as expected Posted by jjtoranzo2004 on Sat, 16 Feb 2013 13:54:08 GMT View Forum Message <> Reply to Message

Tony,

It seems Google only searches on one domain at the same time http://support.google.com/customsearch/bin/answer.py?hl=en&a mp;answer=115961

The solution is to add another radio button and to separate the searches for www.radicore.org and www.tonymarston.net

The alternative is use sitemaps http://support.google.com/webmasters/bin/answer.py?hl=en&amp ;topic=13452&answer=75712

Thanks.
