Tony,

I stumbled upon this page

<https://www.creativewhim.com/6-html5-validation-errors-and-how-to-fix-them/>

it includes a section on how to fix the html code of StumbleUpon Badges to make it validate,  
specifically the offending part:

```
<su:badge layout="1"></su:badge>
```

There is another solution here

<http://marioiliev.com/en/blog/web-design/38-html-validation-errors-and-how-to-fix-them/>

the code looks more elegant, but uses jQuery.

Thanks in advance.
