It doesn't work
Here is my code in cm_ChangeConfig function:

```
$this->fieldspec['product_mask']          = array('type' => 'string',
       'size' => 12,
     'noedit' => 'y',
       'nosort' => 'y',
       'nondb' => 'y',
     'uppercase' => 'y');
```

Is something wrong?

Thanks for advance!
