Subject: Re: PopUp changes Key fields Posted by AJM on Fri, 22 Jun 2018 09:05:34 GMT View Forum Message <> Reply to Message

What is the relationship between 'kontakt\_stamm\_verbaende\_art\_id' and 'verbaende\_art\_id'? Which is returned from the popup form and which is saved in your \$fieldarray? Which do you NOT want stored in your \$fieldarray?

If you want the value for 'verbaende\_art\_id' stored as 'kontakt\_stamm\_verbaende\_art\_id' and not 'verbaende\_art\_id' then you must remove it from \$select\_array before you exist from \_cm\_popupReturn().
