Subject: Re: Business Process Mangement and Rules Posted by AJM on Mon, 09 Apr 2007 21:57:08 GMT View Forum Message <> Reply to Message

You need to take a look at <a href="http://www.tonymarston.net/php-mysql/menuguide/mnu\_role\_task">http://www.tonymarston.net/php-mysql/menuguide/mnu\_role\_task</a> field(multi)b.html

These tasks allow you to change the accessibility of individual fields within a form based on the user's role. By default each field is granted FULL access (read and write), but this can be changed to NOEDIT (read only) or NODISPLAY (hidden) for individual roles and tasks.

Is this what you are after?
