Subject: Re: refreshing Posted by interop on Wed, 13 Jun 2007 15:03:10 GMT View Forum Message <> Reply to Message

After I return from the add2 screen I am stepping through the std.multi2.inc file I never get to the getData() function. Here is some info while stepping through std.multi2.inc:

\$_POST is empty
\$_GET only contains session_name
\$return_from is set properly
\$return_action is 'OK'
\$popup_object is null
\$selection is null

does any of this help?
