Had to replace "SELECT @@IDENTITY" with "SELECT SCOPE_IDENTITY()" in dml.sqlsrv.class.inc, because @@IDENTITY returned Auto Increment value from other tables due to the table being part of an existing system with built-in triggers. For reference: https://blogs.msdn.microsoft.com/spike/2009/10/20/my-take-on-identity-vs-scope_identity/

I have applied this change, and it will be available in the next release.
