Subject: Is the java version of Radicore still alive ? Posted by andylam on Fri, 20 Jul 2007 10:33:29 GMT View Forum Message <> Reply to Message
Hi,
Does anyone know whether Webfastforms project still alive?
Thanks

The web site appears to be dead, and I get no response from any of my emails, so I assume that it is dead, defunct, gone the way of the Dodo, pushing up daisies, kicked the bucket, shuffled off this mortal coil, gone to meet its maker, et cetera.

I've just received a message from the author of the Java porting of Radicore.
It is available for download from SourceForge https://sourceforge.net/projects/webfastforms/
Kind regards, F
