In case anyone is interested, here is the code to make it work:

```
style_custom.cssinput.submit {
    background-color:white;
}

footer.txt
<script type="text/javascript">
var inputs = document.getElementsByTagName("input");

for (var i=0; i < inputs.length; i++)
    if (inputs[i].type == "submit")
        inputs[i].style.backgroundColor = "inherit";

</script>
```
