Subject: Where does <imagename> search for the image in pdf multi?

I have this code in a report.inc file:
$structure['multi1']['fields'][6][] = array('image' => 'images/logo_print.jpg','imagewidth' =>30,'width' => 20, 'align' => 'center','x'=> 5);

But I can't figure out where should I place the image and what should be the path, I've tried several options but it didn't work.
