## Subject: Blank screen after file upload transaction Posted by edortizq on Mon, 17 May 2010 17:38:39 GMT

View Forum Message <> Reply to Message

I'm uploading an ms-excel file with this \_cm\_uploadFile function

```
function _cm_fileUpload ($input_name, $temp_file, $wherearray)
{
    $file_name = $input_name;
    $this->_processFile($temp_file);

return $file_name;
}
```

The processFile function loads the excel.php file (attached), during the process the screen remain with uploadFile screen, finishing the process the screen turns white.

Any idea why it happens??

Thanks for advance.
