Tony,

In
http://www.tonymarston.net/php-mysql/the-case-against-intell igent-databases.html

(1)
the div element started in line 272

is missing the end tag.

(2)
In line 176 there is and end tag for a p element (</p>) which is not open.

(3)
Also, the system identifier should be changed to
http://www.w3.org/TR/1998/REC-html40-19980424/loose.dtd

Thanks.
