Tony,

http://www.tonymarston.net/uniface/standards.html#2003-09-20 in my browser takes me to the top of the page and so does
http://www.tonymarston.net/uniface/standards.html#2005-01-22
(but http://www.tonymarston.net/uniface/standards.html#history works fine)

Shouldn't line 888 be
<td>22nd Jan 2005</td>
instead of
<td>22nd Jan 2005</td>

Thanks.
