Tony,

I stumbled upon this page
https://www.creativewhim.com/6-html5-validation-errors-and-h ow-to-fix-them/

it includes a section on how to fix the html code of StumbleUpon Badges to make it validate, specifically the offending part:
<su:badge layout="1"></su:badge>

There is another solution here
http://marioiliev.com/en/blog/web-design/38-html-validirane- na-butoni-za-socialnite-mreji

the code looks more elegant, but uses jQuery.

Thanks in advance.
