Tony, don't forget this one:

http://www.tonymarston.net/php-mysql/breaking-bc-is-evil.htm l

have have --> have
I do not have to declare a variable as being numeric before using a numeric function on it, I do not *have have* to declare a variable as a string before using a string function on it, and I do not have to declare a variable as an array before using an array function on it.

Thanks.
