Your include_path directive is wrong. If you read the instructions at http://www.radicore.org/installation.php you will see that it is supposed to contain pointers to four directories:

radicore/includes
radicore/menu
radicore/audit
radicore/workflow

The file mentioned in your error message - 'classes/php_session.class.inc' - exists in the 'radicore/audit/classes' directory, but as it is not mentioned in your include_path it cannot be found.
