For my understanding what you mean:

Before:

multi1
  field1
  field2
  field...
  horizontal line

Now: Only non-empty fields are appended to $outarray.

multi1 (=field1)
multi2 (=field2)
..
multi3 (=field5)
multi4 (=field...)
horizontal line

But how do I have to create the report.inc? At the moment I have the following structure:

$structure['multi1']['fields'][1][] = array('field' => 'training_plan_detail_uebung_name_label',
   'width' => 17,...

For my skills this construction seems to be very difficult. I think I will reduce the lines.
