It is not necessary for every user to start at the main menu after passing through the logon screen. Each ROLE can be configured to start at any menu in the system. Please refer to http://www.tonymarston.net/php-mysql/infrastructure-faq.html #faq65 for details.

It is also possible for the site administrator to construct whatever hierarchy of menus is desired. Please refer to http://www.tonymarston.net/php-mysql/menuguide/appendixa.htm l for details.
