Subject: LIST3 - no paging area for "middle" as of 2.10 Posted by divico on Fri, 07 Dec 2018 11:15:24 GMT

## Greetings,

I noticed that since upgrading to 2.10 the paging area for the "middle" entity is no longer displayed. That problem did not occur in 2.09. I attach two screenshots, one from 2.09 and one from 2.10. The application is the same. Any ideas?
