According to your sample code the column with the dropdown list is 'ma_ausruestung_preis_eigenanteil', but you have not shown the contents of $this->lookup_data['ma_ausruestung_preis_eigenanteil']. This is an associative array, so I am interested in seeing the keys and the values. You have also not explained how the column 'gr_art_dropdown' fits into the picture. Where is the code which splits your multi-part value into a series of separate values?
