This version contains the following changes:

Database changes:
- added column â€˜task_id_quicknavâ€™ to MNU_TASK table. Please run script menu\sql\mysql\alter_table(2023-01-14).sql to update the MENU database.

Other changes:

made changes to various scripts to convert NULL to an empty string before calling any function that requires a string.
updated mnu_control.class.inc to tighten rules regarding switching password encryption ON and OFF and changing the authentication method.
updated mnu_user.class.inc to prevent switching password encryption between ON and OFF when the authentication method is not INTERNAL or SSL.
fixed bug in mnu_saved_selection.class.inc which failed to update is_selected in mnu_saved_selection_data table.
fixed bug in custom_pre_eraseRecord() method of std.table.class.inc which failed to call _cm_pre_eraseRecord() method if there were no errors.
fixed bug in std.update3.inc which failed to deal with changes made to $fieldarray during validation process.
