I try to install radicore, but show de next error:

This application has encountered an unrecoverable error
The following has been reported to the administrator:

2006-11-29 11:56:42
Fatal Error: pg_connect() [function.pg-connect]: Unable to connect to PostgreSQL server: FATAL: no existe la base de datos Â«ldelannoyÂ» (# 256).

Error in line 49 of file '/var/www/html/luis/radicore/includes/dml.pgsql.class.inc'.

Script: /luis/radicore/menu/logon.php

Remote Address: 172.17.166.55

Request URI: /luis/radicore/menu/logon.php

The database is "radicore" and dbusername="ldelannoy".

A try the version radicore-2006-11-18.zip.

Luis.

Have you created the database as per the installation instructions? Have you loaded the data? Can you see the "radicore" database with its collection of schemas with your database administration tool (pgAdmin)?

Yesterday, revised then problem, and, when a password is empty show me the message error. I put a password and the problem is fisnish.

Then, the system show the error when a dbpassword is empty.

Thanks.

It is amazing how well things work when you follow the instructions.
