This version contains the following fixes:

fixed problem in file include.xml.php5.inc when attempting to perform XSL transformations on the client.
fixed problem which prevented script help_text_multi.php from deleting entries.
fixed problem with scripts mnu_role_taskfield_multi(a) and (b) where entries not yet defined on the database were not being displayed with default values.
fixed problem in files dml.*.class.inc caused by SELECT count(*) containing a GROUP BY clause.
