Hi Tony,

Encountered the following error while running the Survey 1.0.0 applcation.

Fatal error: Call to undefined function whereFilter() in C:\wamp\www\riskmap\survey\classes\survey_question.class.inc on line 71

It appears the whereFilter function is missing? How should I go about in resolving this bug?

Thanks,

Best regards,

John

That function has been renamed. Please use the attached update.
