I am trying to create a list menu for one of the tables using list1 function and I keep getting the following error message:
Any help will be appreciated. I have used the pattern for other tables but it does not seem to work for this one.
Thanks

This application has encountered an unrecoverable error

The following has been reported to the administrator:
2008-03-29 20:00:58

Fatal Error: MySQL error: 1146 - Table 'hospital_system.treatment_sheet' doesn't exist (# 1146).

SQL query: SELECT SQL_CALC_FOUND_ROWS * FROM treatment_sheet LIMIT 10 OFFSET 0

Error in line 447 of file 'C:\xampp\htdocs\radicore\includes\dml.mysqli.class.inc'.

The clue is in the error message "MySQL error: 1146 - Table 'hospital_system.treatment_sheet' doesn't exist "

Do you have a database called "hospital_system"?
Does a table called "treatment_sheet" exist in this database?
