Congratulations for your excellent software!
Is there a way to set session time limits for users? for example:
From 8:30 am to 5:30 pm
Thanks for advance

Not at present, there is only the SHUTDOWN option. How would you see this working?
1) Define a single time limit for all users?
2) Define time limits for user roles? (What if different users are in different time zones)
3) Define time limits for individual users?

Thanks for your reply.
I think that should be something like time limits per role and per user, something like the "initial values"
